

QUALITY ASSURANCE POLICY

ENERTIS SOLAR, S.L. is an international Consulting, Engineering and Quality Control firm, leader in the international Renewable Energy sector, belonging to the Applus group.

Our mission is to guarantee the maximum profitability of our clients and an adequate management of the risks of their projects, through the provision of innovative services with high added value.

Our vision is to consolidate ourselves as a Leading Global Company in the provision of consulting, engineering and quality control services in the Renewable Energies and energy storage sector, through the development of innovative services, contributing to the promotion of Renewable Energies as sustainable alternative for electricity generation anywhere in the world.

In ENERTIS SOLAR, S.L. We share the importance with Applus of ensuring that there are adequate processes for Quality Management and guaranteeing compliance with legal requirements, independence in those activities that require it, confidentiality and other requirements. For this, it considers fundamental the dedication of all its efforts in:

- Meet the requirements agreed with customers.
- Provide a reference framework to establish Quality objectives.
- Comply with current legal requirements.
- Ensure continuous improvement of processes.
- Ensure the highest levels of customer satisfaction.

Supporting these objectives, the Management of ENERTIS SOLAR, S.L. makes a strategic decision for the progression of the company, developing and implementing a quality management system for it (ISO 9001), as well as a management system for the laboratory (ISO 17025), so that quality is assured and the continuous improvement of the company's activities.

The activities and tests that will be covered by these management systems will be the following:
9001:

- Consulting.
- Technical evaluations of renewable energy installations, including their energy storage and monitoring system.
- Engineering of renewable energy projects, including monitoring systems and energy storage.

17025:

- Tests of photovoltaic modules.
- Tests of photovoltaic installations.

For all these reasons, the Management of ENERTIS SOLAR, S.L. undertakes to train and inform all the personnel of ENERTIS SOLAR, S.L. regarding the quality documentation for its implementation in the work and to achieve compliance with the client's requirements, those related to the regulations implemented in ENERTIS SOLAR, S.L. the legal and regulatory ones, as well as the continuous improvement of the effectiveness of the management system.

This policy will be disseminated to all the personnel of ENERTIS SOLAR, S.L. so that once understood, it is applied and reviewed for its continuous adaptation.

The Director of ENERTIS SOLAR, S.L.
